Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1, 4-11, drawn to a method for acquiring digital images of any items and transferring the formatted images to a storage medium, classified in class 707, subclass 102.
 - II. Claim 2, drawn to a method and a storage medium for acquiring digital images of the items in different rooms in a household for the inventory and transferring the formatted and encrypted images to a storage medium, classified in class 707, subclass 102.
 - III. Claim 3, drawn to a method and a storage medium for acquiring digital images of the items in different rooms/categories in a business for the inventory and transferring the formatted and encrypted images to a storage medium, classified in class 707, subclass 102.
 - IV. Claims 12-22, drawn to a computer readable storage medium for storing inventory of digital images, classified in class 711, subclass 4.
2. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as acquiring images of any items and storing them, invention II has separate utility such as acquiring images of items only related to household and storing them,

Art Unit: 3625

invention III has separate utility such as acquiring images of items only related to business and storing them and invention IV has separate utility such as storing the inventory of images only. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yogesh C Garg whose telephone number is 703-306-0252. The examiner can normally be reached on M-F(8:30-4:00).
